

Minutes of the Licensure Review Committee Meeting

October 2, 2002

Office of the Indiana Professional Standards Board

10:00 a.m.

In Attendance: Kevin Walter, Earlene Holland, Fay Iorio, Anne Moudy, William Rentschler, and Shawn Sriver.

The meeting was called to order by Chairperson Anne Moudy. The agenda for the day was reviewed, and Shawn Sriver added discussion to be held regarding visual and hearing impaired licensure.

Bill moved that we accept the minutes of the prior meeting; Kevin provided the second ; the vote was affirmative.

Anne provided an update on our committee work and offered a copy of the revised framework. It was the consensus of the group that we have accomplished a great deal during our time as a committee.

A pre-presentation discussion was held related to the Driver and Traffic Safety Education packet of information submitted by them prior to this meeting. The presentation was then conducted by John Bodecker, Indiana Department of Education, Stan Henderson, Director of Traffic Safety Center at Indiana State University, Don Huffman, Director of Driver Education, Central Indiana Service Center and Terry Franks, Driver Education Instructor, Warsaw High School and Bethel College. Upon the completion of the presentation and a question/answer period, the committee reviewed the plan based on the eight criteria for recognition of a new licensure area. Upon completion of that review, Fay Iorio moved that the Driver and Traffic Safety be included in the licensure framework and that the establishment of standards process would be initiated with a review of the ADTSEA standards. William provided the second, and the vote was unanimous in the affirmative.

A discussion with no action was conducted with the committee members to clarify elementary and middle level requirements. In addition, discussion was held related to Visually Impaired and Hearing Impaired licensure and whether or not these licenses should include mild interventions requirements. It was decided that Shawn would draft a letter to Marie suggesting that a committee be established to review all aspects of exceptional needs licensure in the frameworks. We are willing to review and react to a formal presentation on this topic.

It was decided by consensus to no meeting in November and that we would be "on call" for February and March. We will definitely meet in May as scheduled. The meeting was duly adjourned at 1:22 p.m.
